Introduction

- [What is Auction?](#)
- [What is Online Auction?](#)
- [SinoBids as Online Auction Website](#)

What is Auction?

- An Auction is a process of buying & selling goods or services by offering them up for bid, taking bids, & then selling the item to the highest bidder
- The word “Auction” is derived from the Latin “augeo” which means “I increase” or “I augment”

What is Online Auction?

- **Online Auctions** are sales transactions involving competitive bidding that are conducted over the Internet.
- In this one party that sells products and services, while another party bids to purchase them .
- When time expires, the last participant to have placed a bid wins the item and also pays the final bid price
- It is a dynamic pricing environment.

SinoBids as Online Auction Website

- SinoBids Online Auction is a web application which facilitates online auction.
- It is a combination of ascending price auction & bidding fee auction
- The participants must pay a non-refundable fee to place a small incremental bid by buying the any of the bid packages.
- The participants can select any one product, choose one of the auction types on the product, select the any package they bought and place bid.
- Time expires, the last participant who place highest amount will win the auction.

System Study & Analysis

- Need For SinoBids Online Auction
- Online Auction Advantages
- SinoBids Online Auction Features
- Feasibility Study

Need for SinoBids Online Auction

- Traditional auctions, held in stuffy courtrooms, where crowded with bidders and sellers with full of noise.
- Only invite people from local communities were present
- Require a considerable amount of money to stock and store such a wide variety of products.
- Many geographical limitations & time constraints.

Online Auction Advantages

- No geographical constraints
- Time benefits
- Intensity of social interactions
- Large number of Users
- Get Started Quickly
- Save Money
- Uncover New Business Opportunities
- Good control of bidder's submissions
- Easy comparison of bids
- Ease and speed of communication to multiple bidders

SinoBids Online Auction Features

- Affordable seven Bid Packages
- Group & Garden Facilities
- Earn by site reference.
- The webpage does not have to be refreshed for the user to see latest bidding
- How to play the auction.
- Advanced Search & Product list filtering
- Consignment Facilities
- Mailing & Messaging Facilities
- Shipping prices can be set up according to shipping zones
- User can select their own auctiontype for bidding: Entry Auction, Free Auction, Peak Auction, Fixed Price Auction, Live Only Auction, Bonus Auction & Sealed Price Auction

SinoBids Online Auction Features

- Secure bidding environment
- The ability to submit more than one bid
- Users can have their own Watchlist
- Separate listings for: My Bids, My Watchlist, My Won Bids, My Wantlist
- User can gain badges if the condition satisfy
- Feedback rating reputation
- Newsletter feature
- Extended User Profile & User Interaction
- Poll of the week
- User can submit their the wanted items
- Address Book & Testimonials
- User Suggestions

FEATURES

SinoBids Online Auction

Feasibility Study

- **Feasibility study** is a test of a system proposal according to its workability, impact on the organization, ability to meet user needs, and effective use of resource
- **Technical Feasibility** - The site is technically feasible because it has immense computer facilities equipped with many features such as
 - easy searching of an auction item
 - choice for bid package and auction type for bidding
 - social interaction through groups and other matters
 - money and time consuming which make this site both interactive and user friendly

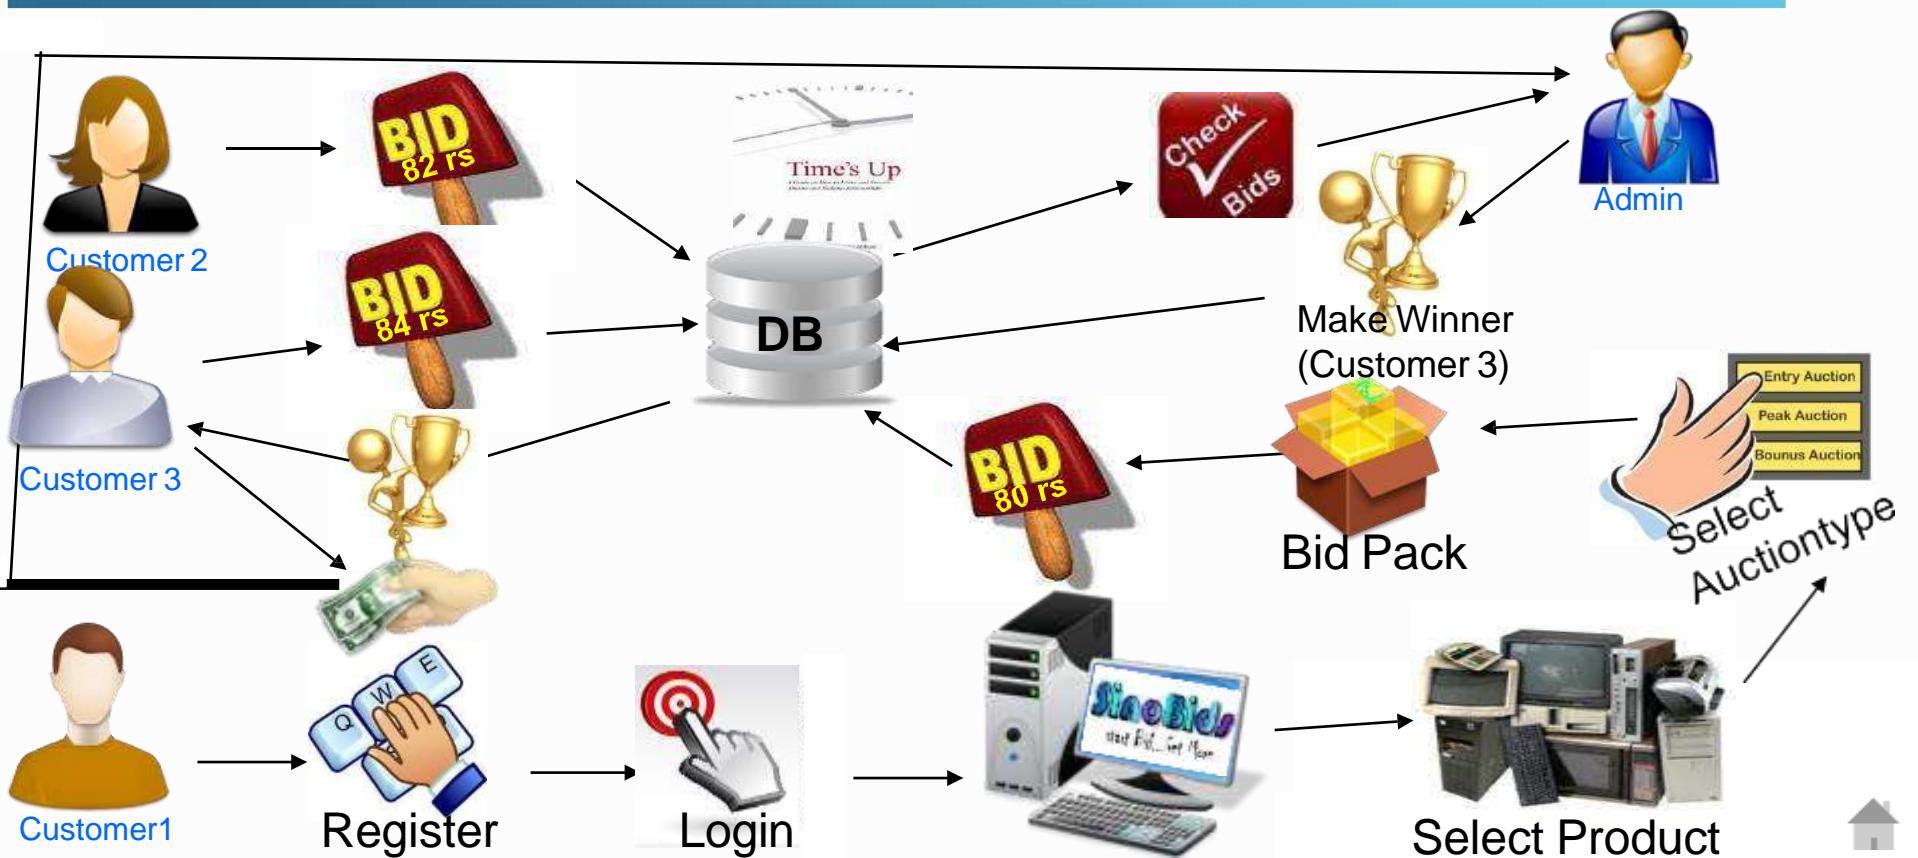

Feasibility Study

- **Operational Feasibility** - Using buttons and links throughout the application programs enhances operational feasibility
- **Economic feasibility** -This site is economically feasible since
 - it does not require any initial cost for registration.
 - It saves money and time for users.
 - In this site the auction starts from the initial price as low and is bid up by successive bidders.
 - The final bid price will be usually significantly lower than the retail price of the item.
 - The auctioneer receives income both in the form of the fees collected for each bid and in the form of payment for the winning bid.

FORM NAME : Forgot Password form

DESCRIPTION : Used to enter the change password

The screenshot shows a web browser window with the SinoBids website loaded at `localhost/auction/user/forgotpassword.php`. The browser's address bar also displays `localhost / localhost`. The page header includes the SinoBids logo and the tagline "start Bid...Get More". A navigation menu bar is visible with links like Home, How to Play, Winners, My Account, Buy Bids, Group, Garden, and Achievements. Below the menu, a breadcrumb trail shows "Navigation: Home < Forgot password".

The main content area features a "Forgot Password" form with a blue header bar containing the text "Forgot Password". Inside the form, there is a sub-form titled "Remember Your username, but forgot your password?". This sub-form has a label "Please Enter your e-mail ID & username" and two input fields: "Email ID" containing "dst@hm.com" and "Username" containing "anuradha". At the bottom of this sub-form are two buttons: "Submit" and "Cancel".

Below this, another sub-form is partially visible with a title "Remember Your Password, but forgot your username?". It has a label "Please Enter your password" and an "Email ID" input field. At the bottom of this second sub-form are two buttons: "Submit" and "Cancel".

FORM NAME : wall form

DESCRIPTION : Used to enter the wall comment

The screenshot shows a web browser window for the SinoBids platform. The URL is `localhost/auction/group1/wall.php?id=4`. The top navigation bar includes links for HOME, GROUPS, and MY ACCOUNT. The user is signed in as 'anuradha' with a secure bid ID of 1000056.

The main content area features a decorative background with green flowers and swirls. A banner at the top of the group page reads 'Cars, Bikes & Bicycles Lovers (1 members)'. On the left, a 'Group Menu' sidebar lists options like Home, Members, Wall, Email Members, Remove me, and Other Groups. The 'Electronics' group is listed under Other Groups with 1 member.

In the center, there's a post from 'anuradha' with the message 'hai welcome you all to this' and a 'Post' button below it. To the right, a 'Members (1)' section shows a profile picture for 'anuradha' and a link to 'More members'. At the bottom right, there's a logo for 'UH'.

Annotations in yellow boxes highlight the 'Group Menu' and 'Members (1)' sections.

Welcome to SinoBids Garden

Plant the seeds of new trees...
And comment on new ideas

home garden

Idea shared by : ddd1 ddd1

Instant Sale is a fast, convenient way to sell your electronics for cash or recycle them for free. Respond to a few simple questions about the condition of your item. A buyer will then make an instant offer and provide you with a free shipping label. Once buyer receives the item, he/she will inspect the item within two days. If item is as described, then buyer will deposit funds in your PayPal account.

Type of Auction

 Entry Auctions These auctions are a special offer to our new customers that have not won an auction on SinoBids.com before. You can only bid on one Entry Auction at a time. After you have won your first auction, you will no longer be able to bid on Entry Auctions

 Free Auction Where an auction is marked "Free Auction", the winning bidder does not have to pay the final price. That's right: the price is zero! You just need to pay the delivery charges.

 Peak Auction In this type of auction, the auction will be activated in certain time period. If auction does not close in that time, the same auction will resume on next day at same time.

 Fixed Price Auction If you win a Fixed Price Auction, you only pay the price indicated in the heading of the auction (plus delivery costs), regardless of the level the bidding reaches.

 Bonus Auction Just as a regular auction except that it has a bonus bids

Feedback Profile

Every user has a feedback profile made up of comments from other users. Next to every member's user ID there is a feedback rating no. we calculate the feedback by taking the total number of positive and neutral comments left and divide it into the same number plus the number of negative comments.

★ stands for Positive Feedback

★ stands for Negative Feedback

★ stands for Neutral Feedback

Welcome to SinoBids Garden

Plant the seeds of new trees...
And comment on new ideas

[home](#)[garden](#)

Idea shared by : **meena jose**

Instant Sale is a fast, convenient way to sell your electronics for cash or recycle them for free. Respond to a few simple questions about the condition of your item. A buyer will then make an instant offer and provide you with a free shipping label. Once buyer receives the item, he/she will inspect the item within two days. If item is as described, then buyer will deposit funds in your PayPal account.

Idea shared by : **MEERA NATHAN**

Make site much more secure system security by adding the option of Blacklisting defaulting bidders and can use security provider software.

Administrator Area- Output Form

TABLE NAME - Home Page

The screenshot shows the "ADMIN AREA" of the SinoBids application. The top navigation bar includes links for "Admin Home", "Site Home", "Group", "Garden", and "Logout". The main content area is divided into several sections:

- Site Status:** Displays metrics such as Number of Auctions (84), Open Auctions (24), Closed Auctions (29), Suspended Auctions (28), Auctions Awaiting Approval (3), Marked Deleted Auctions (0), Number of Users (90), Active Users (70), and Suspended Users (20). It also lists Tasks, Auctions Awaiting Approval (3), Suggested Group (5), and Suggested Categories (3).
- Site Setup:** Includes options to Site Name, Admin Email Address, and Choose Site Logo.
- Categories:** Options to Add Categories, List Categories, and View Suggested Categories.
- Products:** Options to Add Products, List Products, Consignment, Todays Special, and WishList.
- Bid Package:** Options to Add BidPackage, View BidPackage, and User Requested BidPackage.
- Group Management:** Options to Add Group, View Group, and Suggested Group.
- Garden Management:** Options to View Garden.
- Users Management:** Options to User Management, User Activation, and Contact List.
- General Settings:** Options to Add & View Quick Search and Add & View Sort List.
- Auction Management:** Options to Add & View Auction Types, Closed Auction, Opened Auction, Future Auction, Peak Auction, Live Only Auction, Winners, Pending Winners, Add Badge, and View Badge.
- Payment Details:** Options to Add Payment Description, Mail Reminder, and Shipping Charge Calculation.
- Survey:** Options to View Survey.

Normalization

- A relation is said to be in a particular **normal form** if it satisfies a certain specified set of constraints on the kind of functional dependencies that could be associated with the relation
- This site satisfies **First Normal Form** ,
 - by eliminating repeated groups by creating separate tables for each set of related data.
- This site satisfies **Second Normal Form**;
 - by creating separate tables for sets of values that apply to multiple records and relate these tables through foreign keys.
- This site **Third Normal Form**;
 - by eliminating fields that do not depend on the key from the original table and add them to the table whose primary key is their determinant.

Normalize

System Testing

System Testing is a process, which reveals errors in the program.

The different testing steps done in this site are

- [Unit Testing](#)
- [Integration Testing](#)
- [Black Box Testing](#)
- [White Box Testing](#)
- [Acceptance Testing](#)
- [Validation Testing](#)

System Testing

- **Unit Testing**

- In this site, unit testing is done in every module, tested validations for each step used in programming.
- Required fields are written for the code to be working properly.

- **Integration Testing**

- Here all modules are combined in this testing step.
- The entire program is tested as a whole.
- Correction is difficult at this stage because the isolation of causes is complicated by the vast expense of the entire program
- Thus in the integration testing step all the errors uncover are corrected for the next testing step.

System Testing

▪ Black Box Testing

- Each function developed in the software are selected carefully and checked for the performance.
- Each result is compared with the actual or expected result.
- The procedure is repeated for the confirmation of the test result.
- Software is checked using multiple users and tested whether it works properly for the administrator and other users allowing authorization rules.

▪ White Box Testing

- Windows commands and built-in functions in the PHP are used in the code studied carefully and checked whether it is implemented in the proper way or in proper place.
- Line by line flow of code checked.

System Testing

- **Acceptance Testing**

- The system under consideration is tested for user acceptance by constantly keeping in touch with prospective system and user at the time of developing and making changes whenever required.

- **Validation Testing**

- All validations are tested in this phase
- In our system, validations are mainly performed at the time of login, registration, bidding, payment and changing password & email.
- Moreover, each code modules are tested one after another for effectiveness of errors

System Testing

FORM NAME : Loginform

DESCRIPTION : Checking username & password

The screenshot shows a web browser window for the SinoBids website. The URL in the address bar is `localhost/auction/signin.php`. The page displays a 'Signin' form with two input fields: 'Username' containing 'sona' and 'Password' containing '*****'. Below the form, an error message reads: "Your username & password is not matching..please try it again..". At the bottom of the form, there are 'Signin' and 'Cancel' buttons.

Testimonials

Good ...

The screenshot shows the 'Edit account settings' page. A red asterisk next to 'You entered an incorrect password' indicates an error. Below it, another red asterisk next to 'The new password and confirm new password fields must be the same' also indicates an error. The 'Old Password' field contains the user's current password, and the 'New Password' and 'Retype New Password' fields both contain the new password being entered. The 'Save' button is visible at the bottom left of the form.

FORM NAME : Payment form
DESCRIPTION : Checking Validation

The screenshot shows a web browser window for the SinoBids website. The URL in the address bar is `localhost/auction/user/banktransfer.php?bidid=28`. The page title is "SinoBids". The main navigation menu includes "Search", "Select category", "Quick Search", "Advanced Search", "Select Auction", and links for "Home", "How to Play", "Winnings", "My Account", "Buy Bids", "Storylines", "Community", and "Announcements". A "Signed In as: mmoniruzzaman" link is also present.

The main content area displays a "Bank Transfer" form. It has two sections:

- Bank Account Details:**
 - Account: D1800B000544
 - Account Name: SinoBids
 - Bank: ICICI Bank
 - Swift Code: ICICINEXXX
- Please enter the details of Bank Account:**
 - Bid Package: Platinnum Package
 - Amount: ₹ 4250
 - Money transferred from A/C No:
 - Transfer Code:
 - Comments:

A validation error message "Enter valid Bank Transfer code" is displayed below the second section. At the bottom right of the form is a "Submit" button.

System Implementation

- **Implementation** is the stage in the project where the theoretical design is turned into a working system and is giving confidence on the new system for the users that it will work efficiently and effectively.
- The methodology used for implementing web applications contains the following steps:
 - Process listing
 - Maquetting / Wire framing / Prototyping
 - URL listing

Conclusion

- The primary goal of this site 'SinoBids OnlineAuction' is to create a successful online auction.
- All the web screens contain all the information regarding the entering or updating of data
- Error correction and modification for further enhancement could be made very easily.
- This site is highly portable and can be implemented in any organization without much modification of the softwares
- A thorough review of the design reveals that the system objectives have been met.
- This site also reduces the distribution cost of a product. It can be stored at one place till it is ready for shipping.
- It will also reduce the packaging cost of items for distribution to intermediaries such as retail stores
- It is very flexible with user friendly screens enabling the user to use it without any inconvenience
- It will also protect goods from damages and keep them safe

Scope for Further Enhancement

- The system security can be added by the option of Blacklisting defaulting bidders and can use security provider software.
- Discussion forum & announcement forum can be done for the users.
- Along with bidders, sellers can be included. There also can be option for rating sellers & can have store facility.
- Online help & online group within members can be introduced
- Bid helpers can be included in the site for easy bidding.
- Event Calendar facility & extended payment options can be included.
- Blogs, eClassified, google search and also interaction between social networking sites
- Online live video demo of the product can be included.
- All the accepted new features which are suggested by the user can be introduced in the site.
